SIX MORE CONTRACTORS QUALIFY AS MSCA STARS Total Number of STARS is 58

ROCKVILLE, MD—The Mechanical Service Contractors of America (MSCA) is pleased to announce that six more HVACR service companies have qualified as MSCA STARS, bringing the total number to 58.

Contractors designated as MSCA STARS have proven that they are an experienced service contractor, employ the best trained and most qualified workforce including UA STAR certified technicians, maintain a superior safety record, offer outstanding customer service, and focus on continuing education and training for all employees. These qualifications have been confirmed and verified by MSCA, the nation's leading organization representing commercial and industrial heating, ventilating, air conditioning and refrigeration contractors and the NITC (National Inspection, Testing and Certification), an ISO 9001 and ANSI accredited certifying organization.

When a building owner or operator hires a contractor with the MSCA STAR designation, they are ensured that their buildings' systems are in the hands of the most qualified and competent contractors available.

The six newest MSCA STARs include:

Alliant Systems, LLC, Beaverton, OR

McKinstry Company, Portland, OR

McKinstry Company, Seattle, WA

Rabe Environmental Systems Inc., Erie, PA

Waldinger Corporation, Omaha, NE

William E. Walter Inc. Mechanical Contractors, Flint, MI

The MSCA STAR Contractor Qualification Program began in 2004. To qualify for MSCA STAR status, a contractor must complete a detailed application and provide evidence that they meet or exceed the stringent standards set by MSCA.

For additional information on MSCA STAR qualification and benefits and a complete listing of our 58 STARs, visit www.msccstar.org or contact Barbara Dolim at bdolim@mcaa.org.

Since 1975, the Mechanical Service Contractors of America has provided large and small heating, ventilation, air conditioning, and refrigeration service contractors with management and marketing tools, training and education programs, and government and labor relations. MSCA has more than 1,100 contractor members and is a subsidiary of the Mechanical Contractors Association of America.
