MSCA AWARDS 80th MSCA STAR QUALIFICATION
Six More Contractors Attain MSCA STAR

ROCKVILLE, MD – The Mechanical Service Contractors of America (MSCA) is pleased to announce that six more contractors have achieved MSCA STAR qualification, bringing the total number of MSCA STARs to 80. MSCA STAR is a qualifications program that recognizes contractors who meet or exceed rigorous operating and training standards set by MSCA.

To become a STAR contractor, companies must complete a detailed application covering a wide range of criteria, including maintaining a superior safety record, offering outstanding customer service, and focusing on continuing education and training for all employees. In addition, at least 25% of the contractor's technicians must be UA STAR certified to ensure they employ the best trained and qualified workforce.

The six new MSCA STARs are:

- Binsky & Snyder Service, LLC – Piscataway, NJ
- Fred Williams, Inc. – Weymouth, MA
- Hill York Service Corporation (Broward branch) – Fort Lauderdale, FL
- John J. Kirlin, LLC – Rockville, MD
- Padgett Group – Canton, GA
- Scobell Company, Inc. – Erie, PA

“Many contractors claim they provide excellent customer service or have a highly trained workforce. Only MSCA STAR contractors have the independently verified proof to substantiate their position as an industry-wide leader in many critical areas to give their customers peace of mind that they are hiring the best,” said Barbara Dolim, Executive Director of MSCA.

The MSCA STAR program is independently verified by the National Inspection, Testing and Certification Corporation (NITC), an ISO 9001 and ANSI-accredited certifying organization.

For more information about MSCA STAR and its benefits to the building owner, visit www.msca-star.org or contact Barbara Dolim at (bdolim@mcaa.org).

About MSCA

MSCA is the leading national trade association for HVACR contractors, providing education, marketing and labor/management services to assure its members deliver quality performance, value and expertise for all building system needs. MSCA contractors perform service, maintenance, replacement, retrofit and repair work resulting in enhanced reliability, tenant satisfaction, and efficiency. MSCA's contractor qualifications program, MSCA STAR, recognizes contractors that have met the highest standards of excellence in the industry and employ highly-skilled UA STAR certified technicians. MSCA has over 1,200 members and is a subsidiary of the Mechanical Contractors Association of America.
